

LINKED-IN SPEED NETWORKING!

WHAT IS LINKEDIN?

Why should you use this?

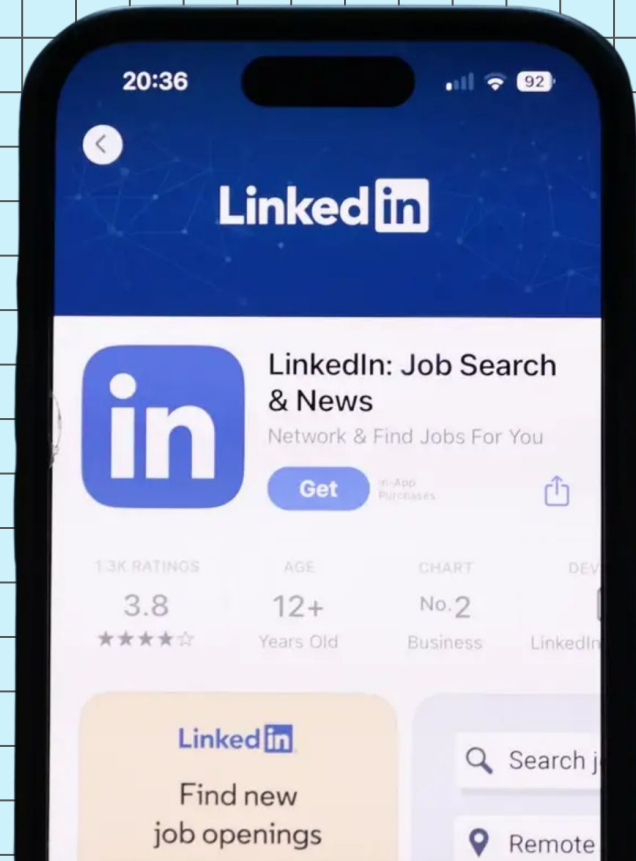

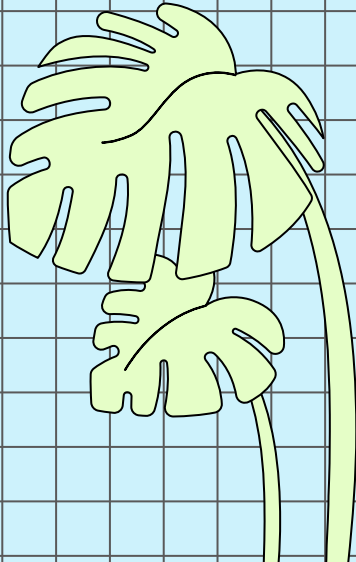

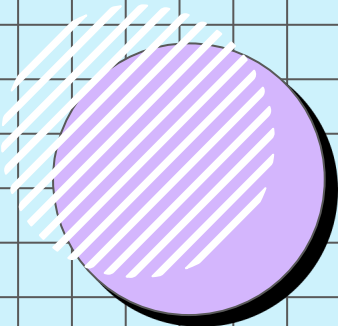

LINKEDIN SUMMARY

LinkedIn is a professional social media application that allows you to connect to a professional network!

This can include:

- Recruiters
- Industry Professionals
- Fellow students
- Professors
- Department heads
- Directors, organiz presidents, etc!

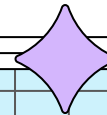

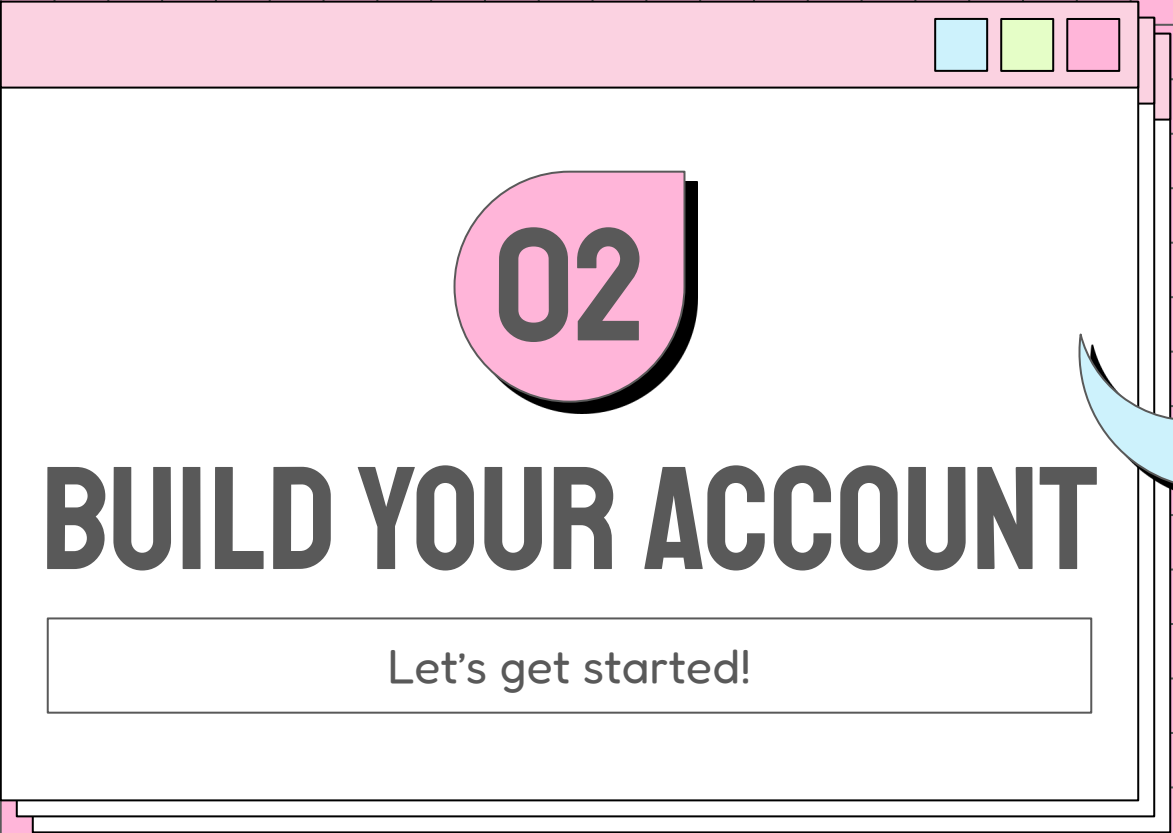

BENEFITS TO USING LINKEDIN

- professional networking
- job searching and career growth
- personal and company branding
- and valuable industry insights

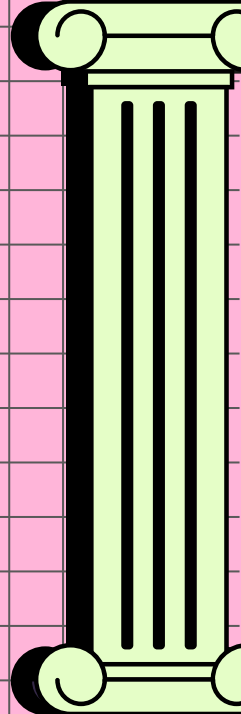

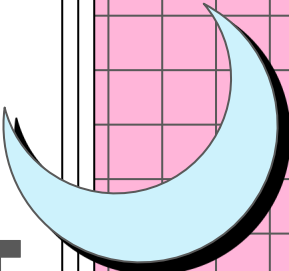

02

BUILD YOUR ACCOUNT

Let's get started!

SELECT A PROFESSIONAL PHOTO

Make sure this is a **business appropriate** photo for your profile! If you can't show it to your granny.... It's not the right one.

Bad Profile Picture

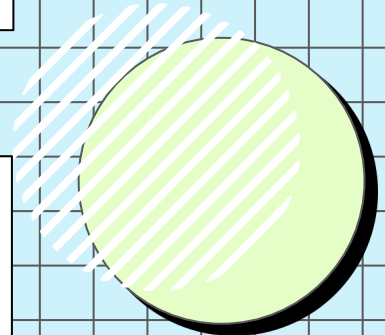

Good Profile Picture

Also, make sure that **you** are the focus of your photo!

Things that make a profile look professional:

- Good lighting
- Good focus
- Blurred/muted background
- Good quality in general

PROFILE

Now that your headshot is selected, go ahead and update your profile a bit more! Include a working location, contact information, and an about me!

As students, you may not have as long of an about section as this person on the right, but feel free to spice it up however you like to sound appealing in a professional matter. **You are not looking for friends - you are looking for a job and opportunities.**

About

Identifying myself as the first-generation immigrant in United States has largely shaped my unique perspectives and aspirations. I understand how it feels to be financially/food insecure or without opportunity and go above and beyond when an opportunity arises. I take great pride in persistence, diligence, and empathy. This is why I love finance and its functions as societal tools that allow individuals/corporations to overcome financial hurdles and accelerate growth.

I also credit my resourceful working style for my love of piano. Life has taught me to seek out opportunities, whether or not they are risky. As a recipient of piano scholarship for four years in a consecutive row, this lesson has made me better in the long run.

Please feel free to contact me via LinkedIn. I'm always looking forward to an insightful conversation over coffee, or even better, a round of skydiving!

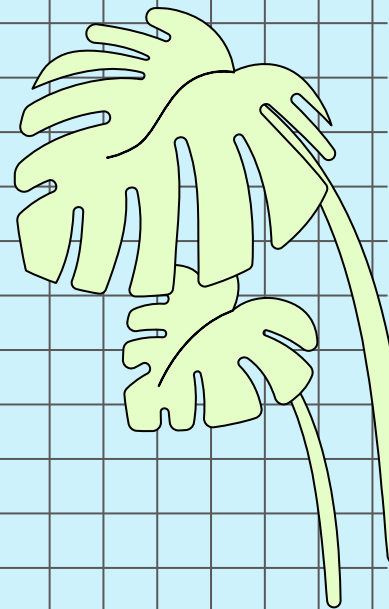

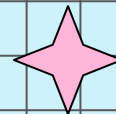

**MAKE SURE TO PUT ALL
JOB EXPERIENCE**

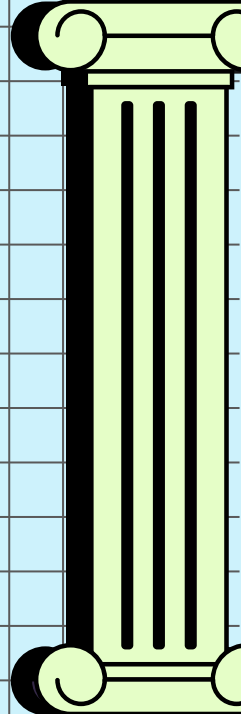

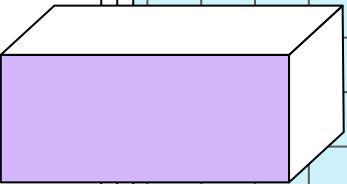

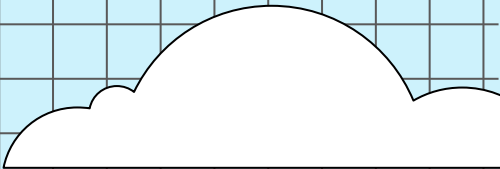

**KEEP YOUR POSTS

**GET UP AND
NETWORK!**

SPEED NETWORKING

For every five minutes, get into a new group!

In every group, you will do the following:

1. Introduce yourself:
 - a. Name
 - b. Year
 - c. What you're studying
2. What career field do you want to go into
 - a. If you have any experience in that field - whether it be a project or research into it, or even a job in that field.
 - i. Talk a bit more about how you got into it!
3. Find a way to make that connection stay by naturally introducing your LinkedIn!
 - a. That way you can get started on connections you know and build your network!
